

WHO ARE WE?

Established in May 1988, RadTech Europe is the leading industry association for the UV/EB energy curing industry in Europe.

Our member companies are:

- **Suppliers of raw materials and/or chemicals**
- **Equipment suppliers**
- **Formulators**
- **Converters (apply and cure formulations by using UV/EB)**
- **Brand owners and End Users**
- **Affiliated organisations, academia, institutes, and consultants**

WHAT DO WE DO?

Connect

- Vast network of industry experts
- Focused committees and working groups
- Meet with key players at RTE events such as the RTE Conference & Exhibition (discounted rates for members)

Educate

- Extensive educational resources
- Online knowledge base with technical papers, webinar recordings, etc.
- Technology and regulation updates via newsletters and webinars
- Online seminars (e.g. food packaging, coil coating, sustainability)

Empower

- Gain industry credibility and exposure
- Participation in video campaigns that promote our technology
- Listing in online membership directory
- Contribute to shaping the future of UV/EB technology
- Representation and advocacy

RadTech Europe membership grants full access and benefits to everyone within your organisation

Become a RadTech Europe member today and unlock a world of opportunities in UV/EB energy curing technology!
