

RTE PACKAGING SEMINAR 2026

UV/EB technologies for packaging applications

4-5 NOVEMBER 2026 | MUSEO FRATELLI COZZI | MILAN AREA, ITALY

WHY ATTEND

The packaging sector is changing rapidly under sustainability, circularity, food-contact and performance requirements. This seminar connects technical, regulatory and market perspectives in one focused programme.

- Packaging sustainability and circularity
- Food-contact compliance and low-migration systems
- EU packaging regulation, including PPWR
- UV LED and EB curing innovations
- Raw materials, formulations and market outlook
- Networking across the complete packaging value chain
